In conclusion,

WHO OR WHAT IS THE TOPIC
ABOUT - Restate the Question:

This experiment investigated...

TW OBSERVATION - Restate Hypothesis
and if accepted/rejected:

It was predicted...

*And that hypothesis has been _____
(accepted/rejected)*

HOW - State the quantitative data:

The data shows...

WHY - Explain using qualitative data

This happened because...

TW OBSERVATION - Identify 1 possible
source of error:

One source of error...

HOW - Explain how to improve:

This experiment could be improved by...

WHY - Explain:

This is important because...

TW OBSERVATION - Identify 1 possible
source of error:

Another source of error...

HOW - Explain how to improve:

This experiment could be improved by...

WHY - Explain:

This is important because...

TW TO CONCLUDE:

The lesson learned ...OR.... The answer to the original question
