

Step 1:

DECIDE as a table group on a good definition of MAKING MODELS and RECORD below:

(HINT: you have written this definition before in previous HW, but may also use a dictionary!)

Making Models:

Step 2:

WRITE a reason why scientists might MAKE MODELS:

Step 3: Model #1

Read the directions at your table and make a model.

Use this space to SHOW your model. You may take a picture or it, or create it within Notability depending on the directions at this station.

Step 4: Do you have LABELS??? Make sure that you do! If your picture has labels that's fine, if not add the labels by editing on top of picture within Notability.

Step 5: Model #2

Read the directions at your table and make a model.

Use this space to SHOW your model. You may take a picture or it, or create it within Notability depending on the directions at this station.

Step 6: Do you have LABELS??? Make sure that you do! If your picture has labels that's fine, if not add the labels by editing on top of picture within Notability.

Step 7: Model #3

Read the directions at your table and make a model.

Use this space to SHOW your model. You may take a picture or it, or create it within Notability depending on the directions at this station.

Step 8: Do you have LABELS??? Make sure that you do! If your picture has labels that's fine, if no add the labels by editing on top of picture within Notability.

Step 9: Model #4

Read the directions at your table and make a model.

Use this space to SHOW your model. You may take a picture or it, or create it within Notability depending on the directions at this station.

Step 10: Do you have LABELS??? Make sure that you do! If your picture has labels that's fine, if not add the labels by editing on top of picture within Notability.

Step 11: Model #5

Read the directions at your table and make a model.

Use this space to SHOW your model. You may take a picture or it, or create it within Notability depending on the directions at this station.

Step 12: Do you have LABELS??? Make sure that you do! If your picture has labels that's fine, if not add the labels by editing on top of picture within Notability.
