

## ACT OUT YOUR ORGAN SYSTEM!

*Create a 3-5 minute skit to show how your organ system interacts with another organ system.*

Planning requirements:

- Have a script
- Include everyone with speaking role
- Have props/visuals (may be on paper, iPad, class materials, etc.)
- Creative way to engage audience

Information to include:

- Function of each separate system
- All parts in each organ system
- Explanation of how the two systems interact - this is the real acting portion of your skit!!
